GOV. FORT IS FIRM

Stand by Proclamation Un- equivocally.

DEFIANCE OF ATLANTIC CITY

Governor Says He Is Not Attempting to Intimidate by Threats, but Is Determined to Enforce the Laws of the State of New Jersey.

Asbury Park, N. J., Aug. 29.—Governor Fort made the following statement today concerning his proclamation Thursday and the defiance of Atlantic City, that he dare not call out the militia to enforce the Bishop law. "I will stand on my proclamation unequivocally. I mean every word. The people will learn that I am not attempting to intimidate by threats." Through a member of Governor Fort's "summer cabinet" it was learned that before issuing his proclamation he sounded the attitude of various members in the legislature and given assurances that if he called a special session they would stand behind him and provide what assistance he could to enforce the law at At-

GOVERNOR FORT.

Atlantic City. He was assured that the legislature would authorize him to enforce the law there even to the necessity of patrolling the resort with troops and placing it under martial law. Thereupon the proclamation issued with the threat to call a special session. But it is said on the authority that the governor did not receive the same assurances on which he desired to obtain authority for the removal of officers who fail to perform their duties. He has asked the legislature for this power in the past. It has been denied.

It is fully believed here that on next Monday Atlantic City will continue its defiance of the government and will be as open as in the past. Advises have reached the governor today that such would be the case and there can be no doubt that the governor for the special session will follow. It is issued the call will probably appear on Tuesday and will demand Atlantic City in terms more severe than the proclamation.

HIS LAST VOYAGE.

San Chilean Naval Official Called by Death. Pensacola, Fla., Aug. 29.—Charles Hill, for twenty years holding a commission in the American navy as lieutenant, which he resigned to become captain in the Brazilian navy, commanding the cruiser Nicotiana, and who afterwards was rear admiral in the Chilean navy, died at his home here Thursday. In addition to serving in three navies, Hill was a captain of volunteers in the Spanish-American war, and later commanded out-of-service, and in South Africa, where he was promoted a captain in the Boer war, serving under General Cronje. Admiral Hill was formerly a resident of Gainesville, Fla.

HELD WITHOUT BAIL.

Case of a Captain Peter Hains and His Brother.

New York, Aug. 29.—Captain Peter C. Hains, of the United States army, who shot and killed William E. Annis at Bay Side, L. I., nearly two weeks ago, and Captain Hains' brother, T. Jenkins Hains, a writer for magazines, who, it is charged, held the spectators at bay while the captain did the killing, were arraigned in Magistrate Gilroy's court in Long Island City Friday on a charge of murder.

T. Jenkins Hains is accused of being an accessory to the murder, while the captain is alleged to be the principal. The announced intention of Captain Hains' counsel to plead insanity as his defense, together with sensational charges which Captain Hains' counsel have made against the captain's wife, involving an alleged confession by her of improper friendship for Annis, have given the case unusual interest.

It was expected that the counsel for T. Jenkins Hains would endeavor to have the charges against him dismissed on the ground that he took actual part in the killing and that what he did was to protect his brother. The Hains brothers were taken from the Queens county jail handcuffed together and rode on a street car in the custody of a deputy sheriff to Magistrate Gilroy's court.

Captain Hains and his brother, T. Jenkins Hains, were held without bail for the action of a grand jury on a charge of the murder of William E. Annis.

DROWNS HERSELF IN LAKE.

Prevented from Marrying Old Sweetheart, Girl Suicided.

Chicago, Ill., Aug. 29.—It became known Thursday that Miss Mary Field Werne, who committed suicide by walking into Lake Michigan at the foot of Fifty-sixth street Thursday, was despondent because an illness that was largely imaginary prevented her marrying a devoted sweetheart.

A search of her room disclosed brief farewell messages to her father and the man she had hoped to marry, George Mansfield, a traveling salesman of El Paso, Tex.

Miss Werne had often threatened to jump into the lake if she was not soon sufficiently recovered to marry George.

The girl graduated from a private seminary in El Paso, and broke down from over study some months ago.

Since the death of her brother, ten years ago, the young woman, who had just passed her twenty-first birthday, spent most of her time with her sister, Mrs. E. French, at El Paso. It was there, as a schoolgirl, several years ago, that she first met and fell in love with Mansfield. Her relatives approved the match, but prevented a wedding ceremony from taking place last spring because of her mental condition. This, it is said, aggravated her ailment.

FRIGHTENED BY DREAM.

Women Refused to Sail in Ship Bound for Italy.

New York, Aug. 29.—Crying that she had dreamed that the French line steamer La Touraine, which sailed for Havre Wednesday would go down at sea, Maria Fenelli refused to go aboard the vessel, although every effort was made to induce her to change her mind.

With her husband and seven children, Mrs. Fenelli was to have sailed for their old home in Alessandria, Italy, where they intended to spend their remaining days, but the strange omen that came to her in a dream had so thoroughly frightened the woman that she would not go on the vessel, and when the La Touraine steamed away, the woman with her little flock of children and an angry husband were still standing on the pier.

SAILED RUN DOWN BY STEAMER.

Verahy, Indiana, Aug. 29.—John Harry and Edward Clever, aged fourteen, thirteen and eleven years, respectively, while in a skiff, were run down late Wednesday night by the steamer Cincinnati. The front half of the skiff containing the unconscious form of the youngest boy was found Thursday. It is believed the other two have been killed.

FOURTEEN LIVES LOST

Result of Great Flood at Augusta, Georgia.

A LOSS OF OVER \$1,000,000

For Forty-Six Hours the Turbulent Savannah Held the city in Flood's Grasp, Causing Loss of Life and Much Property Damage.

Augusta, Ga., Aug. 29.—The reign of mud began Friday morning at daylight in the streets, and houses of Augusta, where for forty-six hours the turbulent Savannah had enslaved the city in its grasp.

At 6 o'clock Friday morning the city was free of water, except in the lowlands. Standing in lower Broad street at that hour no water was in sight in any direction, but in its stead mud was everywhere from an inch to many inches deep.

Streets Washed Out. It will be days before normal conditions are restored. Streets have been washed almost away, sidewalks have in many instances completely disappeared, leaving only ragged holes and ditches to mark the place where the pavement was. The upper half of the houses and stores are white and clean, the first story yellow and covered with mud. The hand of the flood has been plainly marked by its trail throughout the city.

With the dawn of Friday came the second chapter of the greatest flood in the history of the city, and as the waters disappeared, hope and energy and relief came to the rescue of the strong hearted people who had sat in silence and at the mercy of raging torrents the day before.

Canal Locks Intact. A pleasant announcement is that the canal locks are intact, and only one break in the canal bank which can be easily repaired with a lower stage of water.

It is known that six persons were drowned Thursday in Augusta.

Harry Carr, bookkeeper for the Nixon Grocery company.

John Paul, a negro fireman on the Southern railroad, while attempting to free the river bridge approach of debris was swept overboard and sank in the raging torrent of the river.

A brakeman was drowned in Broad street flood later in the day.

Two negro draymen, while engaged in carting goods at the corner of Broad street and Marbury street, lost their lives in a swift street current, and their bodies were carried into the canal.

E. C. Omara is reported to have been drowned during the flood at McKinney street.

Many Reported Dead.

Two negroes are believed to have been drowned Thursday, when the city bridge was swept away, many claiming to be eye-witnesses.

It is reported that a white man leaped from the second story of the Metropole going into the open cellar and drowning in the deep water there.

Fires Follow Flood.

Since Wednesday noon the time the waters reached Broad street and the big flood was actually on, there have been five great fires in the city in addition to a number of smaller fires.

The fire department was compelled to join the spectators during the progress of the conflagrations, as the engines and wagons were covered by water and there was no human agency available in fighting flames. In nearly all instances, the fires burned to the water's edge.

Epitome of Damage.

Many human lives reported lost—fourteen verified.

Total actual physical damage, one million dollars.

Great loss of live stock in city and suburbs and lowlands.

Damage to city property, a quarter of a million dollars.

Damage to railroads and railroad property one hundred thousand dollars.

Damage to telephone and telegraph companies, twenty-five thousand dollars.

Damage to merchant and local in-

dustries, two hundred thousand dollars.

Damage to residents, fifty thousand dollars.

Probable loss to mill operatives in the loss of wages, one hundred thousand dollars.

Great Suffering.

Interest in August centers in the dead and the relief measures to be taken for the poor. The greatest suffering is along a deep gully known as Bridwell's Bottom and Perry's bottom. Here in instances the houses were submerged to the eaves, and the people have lost their all. The damage is estimated at from one and a half to two millions by the mayor and leading men.

An urgent appeal has been made for assistance by the Augusta Chronicle of Friday, the first issue since Wednesday last.

ON HUMANE LINES.

Prison Reform Association of Georgia Asks for Charter.

Atlanta, Aug. 29.—Determined that the present treatment of convicts under the state laws should not go on, several prominent citizens throughout the state of Georgia have banded themselves together and formed a corporation to be known as the Prison Reform Association of Georgia.

They ask to be incorporated for a period of twenty years, with the privilege of renewal at the end of that time.

The general object of the proposed corporation is the development of an enlightened and humane spirit in the management, disposition and punishment of the criminals of the state; also the lessening and prevention of crime.

Atlanta is made the principal place of business, but the petitioners ask the right to establish offices in any town, city or county in the state of Georgia or in the United States, and to do business within or without the state of Georgia under this charter.

CALIFORNIA REPUBLICANS.

Platform To Be Presented to Convention—Taft and Sherman Endorsed.

Oakland, Cal., Aug. 29.—The committee on platform and resolutions of the republican state convention finished its work late Thursday night. The platform as it will be reported to the convention strongly endorses the national platform; pays a glowing tribute to Taft and Sherman, approves the constitution looking to a revision of certain tariff schedules, but insists that all California industries be adequately protected.

It is pointed out that through the death of United States Senator Allison, Senator Perkins, as ranking member, becomes chairman of the naval committee and as such will be able to do much for naval affairs on the Pacific coast.

REAL BEER FLOWED FREELY.

Eight Hundred Barrels Emptied in a Sewer at Oklahoma, Okla.

Oklahoma, Okla., Aug. 29.—Eight hundred barrels of beer, valued at \$80,000, belonging to a local brewery company, were emptied into a sewer in this city in the presence of State Dispensary Agent Robt. E. Lester and Internal Revenue Collector C. Howard.

Two thousand people attended the opening, some with buckets and pitchers, hoping for a chance of salvage. This hope was disappointed. The beer was on hand when the prohibition law became effective.

Two New Battleships.

Washington, Aug. 29.—As soon as President Roosevelt approves the plans for the two new battleships, Dreadnaught type, they will be turned over to the naval constructor at the Brooklyn navy yard, where the Florida will be built. Alterations for side will be made for construction of the Utah, the other 18,000-ton battleship, by contract.

Money Order Check Arrested.

Chattanooga, Tenn., Aug. 29.—Chas. W. Brown, money order clerk of the postoffice at Nashville, Tenn., was arrested Thursday night by an inspector charged with the theft of ordinary money from the mails.

DEATH CLAIMS VILAS

Former Senator and Member of Cleveland's Cabinet.

HE DIED AT MADISON, WIS.

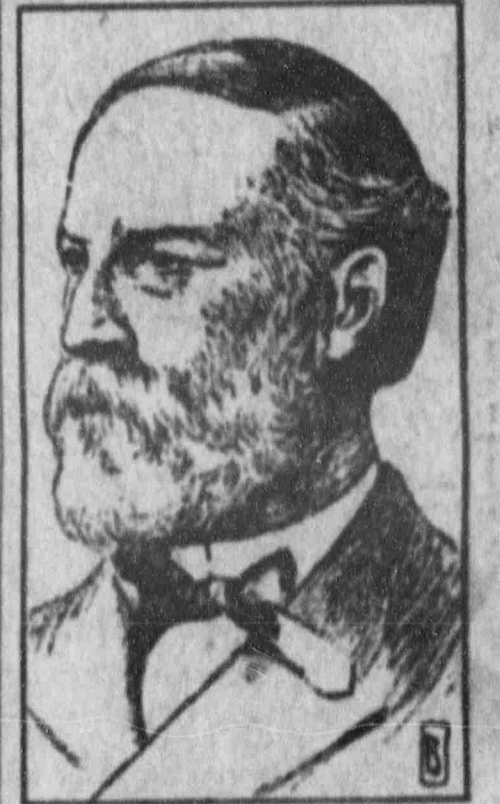

Mr. Vilas Had Been Ill For Several Weeks, His Death Following a Second Stroke of Paralysis—Had Conspicuous Public Career.

Madison, Wis., Aug. 29.—Colonel William F. Vilas died Thursday following five weeks of illness.

While the nurses were administering a bath to the patient, they noticed that he weakened very quickly. An attempt was made to reach the doctor, but Colonel Vilas died before he could be reached.

Dr. Fox believes that the immediate cause of the death was a second stroke of paralysis.

William Freeman Vilas was born in Chelsea, Vt., in 1840 and moved with

his parents to Madison, Wis., in 1851. He was graduated in 1858 and practiced law in his home town until the outbreak of the civil war. He then recruited a company for the Twenty-third Wisconsin volunteers and went to the front. He was soon promoted for gallantry and as lieutenant colonel commanded his regiment in the Vicksburg campaign with conspicuous ability. After several years of active political life he was appointed postmaster general by President Cleveland in 1885. He served in that capacity until 1889, when he became secretary of the interior. That office he held until 1899. From 1891 to 1897 he was in the United States senate.

CRAZY NEGRO RAN AMUCK.

Killed Two White Men Before Being Slain by Police.

Jackson, Miss., Aug. 29.—A special to the Daily News from Mount Olive, Miss., says:

A crazy negro named Gus Bullock ran amuck here and killed Tom Gatling and Dolph Joiner, two white men, and was afterwards slain by a posse of citizens who shot him to death as he was endeavoring to get his shot gun again into action.

Bullock held the town in a reign of terror for more than an hour. He was well supplied with ammunition and taking his stand on the principal street of the town fired at everybody and everybody in sight. Both of his victims were killed instantly.

Gatling was the proprietor of an ice house, while Joiner conducted a mercantile establishment. Both were shot down without warning by Bullock.

Fatal Duel on Train.

Paducah, Ky., Aug. 29.—Conductor John Maxwell, of Paducah, Ky., was shot three times in the abdomen by an unknown negro he had ordered off his train a few miles south of Paducah and the conductor died six days later the same. The negro will die and there is no hope for the recovery of Maxwell.

FINEST SHOWS EVER SEEN IN INTERIOR

Best Attractions Ever Booked for Gainesville Appreciative Audiences.

HIGH GUARANTEES ARE GIVEN

Manager Louis Kalbfeld Will Give Gainesville People the Very Best to Be Had in the Theatrical Line. "Merry Widow" Will Be Here.

Gainesville will no longer be among the inferior show towns of the State, for the very best and finest of attractions are being booked for the amusement-loving public.

The new manager, Louis Kalbfeld, is a practical theatrical man, and as he is familiar with all the shows he is booking nothing but first-class companies for the season, and the attractions will be a surprise to the whole population of the city of Gainesville.

Many of the shows so far booked are companies that Mr. Kalbfeld will have to give a guarantee to secure them, and some of them run as high as \$600 for each performance, while the greater part of the guarantees average \$500 for each show.

He has not fully decided yet as to what he will place on for the opening bill, but is thinking of having "The Merry Widow" Company, who play "The Merry Widow," "Follies of 1908," and the "Red Feather," which will give an opening bill of three nights by one of the best companies now touring the country.

Among the leading attractions so far secured for Gainesville are: Jules Murray, who controls the Paul Gilmore shows, the very best to be had, and who have among their plays "The Boys of Company B," the Hacketts in "Classmates," Florence Gear in "Marrying Mary," and starring in "Cupid at Vassar," Mary Cahill, who proved a big success last season; Coburn's Minstrels; Hi Henry Minstrels; Dandy Dixie Minstrels; Geo. Thompson in "Funny Fellows of New York," Pickert's Comedians, and Geo. Ade's "Just Out of College."

He is also figuring on Al G. Field, and has the promise of securing this world-renowned attraction provided the show goes as far south as Tampa the coming season.

The above is only a small portion of the attractions already booked by the management, but they are given to show the public what they may expect from the new management of the opera house.

The mere fact that these companies play but very few places in the State is the reason that Mr. Kalbfeld was compelled to give them a guarantee of such a large amount, for the jumps they have to make is quite an item.

The principal places that these attractions will visit are Jacksonville, Pensacola, Tampa and Gainesville.

while some of them will take in Palatka in the circuit.

This news will be gladly received by the people of Gainesville, as they can now rest assured that they will see the best that is going under the new manager and he seems to spare no expense or trouble in looking out for their interests.

We anticipate the demand made upon the capacity of the opera house will be even greater than has ever heretofore been experienced, for many people often refrained from visiting the entertainments for the mere fact that the class of performances were not up to what they deemed the standard.

THE ELECTRIC THEATRE.

Each Performance Now Drawing
Crowds With Daily Change of Bill.

Gainesville's new electric theatre is now drawing large audiences at each performance and is daily becoming a favorite among the people.

The managers put on different scenery at each performance and on every occasion the pictures prove to be entertaining and instructive to the old as well as the young folks.

The program Saturday was one of the best ever produced by a moving picture concern, producing among their films the "Holy City," "Romance of the Alps," "Prodical Son Returned," etc.

For the short space of time that the show has been running it is pleasing to note the grand success with which they are meeting.

WARNER AGAIN IN HARNESS.

Has Invested in Job Printing Business in Paducah, Ky.

The numerous friends in this city and throughout the State of Geo. C. Warner will learn with interest that he is again engaged in the printing business, having associated himself with B. J. Billings, Paducah, Ky., one of the most extensive printers in that State.

Mr. Warner is regarded as a printer of exceptional ability, and is well-known to the fraternity throughout this State, having been associated with the profession at various points. For the past eight or ten years, however, he has been traveling representative for the Miami Cycle Company, manufacturers of the Racycle, during which time he was very successful.

Florida friends of Mr. Warner wish him much success in his new venture.

TWENTY-FOUR MILLS NEW CITY TAX LEVY

Resolution to That Effect Adopted By
the Board Friday Night.

A SMALL REDUCTION WAS MADE

Property Owners Meet the City Fathers and Ask for Reduction, Which in Many Cases Was Granted—Ordinance Passes Second Reading.

The City Council met in adjourned session at chambers on Friday evening for the purpose of hearing complaints of the citizens whose property had been raised, when the following members were present: Chairman Shanda, Aldermen Broome, Burnett, Cannon, Graves, Mixson and Clerk Dell.

After hearing the grievances of several citizens present reductions were ordered by the council and property was assessed as follows: J. H. Hodges, \$1,500, Crawford & Davis \$300, J. L. Kelley \$400, Gainesville Chemical Works \$2,000, Mrs. Liola Morris \$1,200, Elks Club \$2,000, Evans Halle \$1,500, Henrietta Waters \$100, Nettie Daniels \$100, H. P. Sauplion \$100, Mose Sherman \$100.

The following resolution was adopted by the council.

Hon. President and Members of the City Council:

Gentlemen: Your committee on finance would recommend the following levy on the taxable property of the city to meet the requirements for the current year:

For the sinking fund to pay coupons and create a sinking fund for the redemption of bonds, nine mills, to be appropriated as follows:

For general utility bonds.... 4 mills
Educational bonds 3 mills
Municipal bonds 1 mill
Waterworks bonds 1 mill
Fire protection within lines established by ordinance... 1 mill
General fund (ordinary expenses of city).....14 mills

Total24 mills

Respectfully submitted,

K. K. BROOME,

Chairman Finance Committee.

An ordinance to determine the amount and fix the rate of taxation and make annual tax levy for year A. D. 1908 was read, and upon motion of Alderman Cannon adopted upon its first reading.

Alderman Broome moved that rules be waived and the ordinance placed upon second reading, when every member voted "Y" except Alderman Barnett, who was excused.

The ordinance was taken up by sections and adopted as a whole on second reading.

Alderman Cannon moved an adjournment until the next regular meeting, which was carried.

Richardson's New Hotel.

W. G. Richardson, well-known in all sections of the county, has embarked in the hotel business, having leased the Commercial Hotel, located on East Main street north, which is admirably located for the business. He has thoroughly overhauled the house and made it home-like in every way, and solicits the patronage of all who desire a moderate-price house.

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by all druggists.

THROUGH NIGHT SERVICE WILL BE ADDED

Fixture for This Division of Atlantic Coast Line.

FOUNDATION FOR RUMOR

Will Be Put on at Regular Time, About September 15th, Giving a Double Daily Service for Gainesville Over This Line.

Notwithstanding the reports to the contrary, the double-daily service of the Atlantic Coast Line will again be operated through this city when the season opens.

The rumor which was current on the streets that Gainesville would be cut out of the service this fall, and that the trains would be operated via Ocala, on the West Coast division, was emphatically denied by the division superintendent in his offices yesterday.

He informed the reporter that the service was a fixture for this division, and that it would be inaugurated at the usual time, about September 15th. It has always been their custom to operate the trains around this way.

This will be gratifying news to the traveling public and the citizenship of Gainesville, Ocala, Leesburg, and other important towns along this route. That it is a great convenience shown by the substantial local patronage that is accorded the service.

Dance Near Dayville.

There was a dance at Dayville on Friday night, and a goodly number of the young folks of this city took advantage of the occasion and were present, declaring a most enjoyable time was spent. Some of the parties lost on their return to the city and spent the night in the woods, when the "we sma' hours" rolled around the lost ones were seen straggling in, a tired and hungry crowd of amusement seekers. They report having very good through the section they traveled.

Several of the Gainesville boys contacted a hand-car and made the trip remarkably good time, but on their return they had the pleasure of pushing it up the hill when they reached the city.

Informal Dance at Armory.

The young people of the city were gathered in an informal hop at the armory on Friday evening, when a goodly number of couples availed themselves of the opportunity to be present. They tripped the light fantastic toe until a late hour, when all departed, having spent an enjoyable evening.

NEW WATER MAINS AND PLUGS ARRIVE

Additional Fire Protection is Now Assured More Citizens.

WAS ORDERED BY COUNCIL

Will Be Put Down by Superintendent Miller as Soon as Possible—Good News to Unprotected Sections of Growing City.

Gainesville's water mains will now be extended into new territory, which will be gratifying news to the sections where this work has been ordered done.

The carload of mains and plugs necessary for the putting in of this work, which were ordered by the city some weeks since, have arrived, and Superintendent Miller will begin work at once placing them along the designated routes.

College Park will have the mains extended in that section, while the citizens in a portion of East Gainesville come in for the much-needed improvement.

A solid carload of the mains has been received, but it is doubtless that this will be sufficient to give other unprotected sections of the city protection.

LETTER TO W. R. THOMAS, Gainesville, Florida.

Dear Sir: Mrs. S. C. Ashe's house in Yorkville, S. C., was painted Devoe 21 years ago and hadn't been painted since; it is a handsome house and the paint was in good condition when we were there three years ago.

Do we therefore say that Devoe wears 21 years in South Carolina? No; on the sandy coast, where the sun is hot and the flying sand cuts the bark off trees, Devoe is the only paint that wears more than one year.

Localities differ; Devoe doesn't differ. It is the paint that takes least gallons to cover a job and makes least cost and wears longest; how long depends on sun, wind, etc.

Yours truly,

F. W. DEVOE & CO.

P. S.: The S. J. Thomas Co. sell our paint.

August 28th was the forty-fourth anniversary of the marriage of Mr. and Mrs. J. E. Ackley and they entertained Friday evening in honor of Miss Ethel Webster's guests, Misses Mary and Dorothy Bass and Ammonette Gordon. Games afforded much pleasure throughout the evening, and delicious refreshments of ice cream and cake were served. Mrs. Webster assisted in the serving. The young people all enjoyed the evening very much and wished the host and hostess many happy returns.

AN APPEAL FOR AID.

The Sun is pleased to receive and publish from that true and loyal Democrat, Dr. J. F. McKinstry, Jr., chairman of the Alachua County Democratic Executive Committee, the following appeal for contributions to the Bryan and Kern campaign fund. Dr. McKinstry encloses \$5 as his personal contribution, with the regret that he cannot make it more. All contributions should be sent The Sun in time for us to make remittance on the 15th of September, at which time we will make our final remittance to the treasurer of the finance committee of the National Democratic Campaign Committee. Following is Dr. McKinstry's communication:

"To the Members of the Democratic Executive Committee of Alachua County.

"Gentlemen: Each of you have been appointed a committee of one to circulate a subscription list in your precinct calling upon every good and loyal Democrat who can possibly afford it to subscribe to a fund to be sent to the Democratic National Committee by The Gainesville Sun as the contribution of the Democracy of Alachua county to the cause of Democracy.

"The party is united upon its platform and its candidates. No dissensions exist anywhere, and victory seems assured if money can be gotten with which to carry the battle into the enemy's country. Each of you are asked to give one day to this grand work. Get what you can, from whom you can, and send the amount to The Sun as the donation from your precinct. Very sincerely yours,

"J. F. MCKINSTRY, JR.,
"Chairman."

If some of the negro hack drivers are not a little more careful in turning certain corners of blocks in this city one of them will "bite the dust" some day. They drive their teams around these places at break neck speed and pedestrians have narrowly escaped being run over recently.

The past three nights and mornings have been delightful, the temperature resembling fall weather. It indicates that the backbone of the heated term has been broken and that for the next few months life will be more of a pleasure.

No, you don't have to use every advertising medium or scheme—any more than you have to ride on more than one railroad at once. The Sun reaches the people of Gainesville and Alachua county you ought to reach.

The Elks' Home in this city is admired by all who visit it, and the enterprise of the lodge in providing such an elegant and comfortable resting place is commended by all visiting Elks.

The Democrats of Gainesville and Alachua county are not responding to the call for campaign contributions as they should. If you intend to help the good cause do it now.

Don't fail to register if you desire to vote in the November election.

THE REASON IS PLAIN.

Why does the Legislature refuse to comply with Article VII of the constitution? There are counties in the State that are entitled to greater representation in the Legislature than they now have, simply because that body will not reapportion the membership according to the constitution. When the Legislature itself refuses to obey the law, must the State be regarded as a law-breaking commonwealth?—Brooksville Argus.

The reason is as plain as the nose on a man's face, Bro. Russell. In the first apportionment made after the adoption of the Constitution of 1885 the larger counties of the State, most of which were then termed the "Black Belt," and largely Republican, were deprived of their just representation in proportion to population, and such counties as Columbia, Bradford, Hamilton, Suwannee and others of only half the population, given equal representation with Alachua, Duval, Escambia and others of like population, simply to keep a few Republican members out of the Legislature. And when the "Black Belt" counties and others of three times the population of some counties having equal representation with them, ask for an apportionment in proportion to population, as provided in the constitution, the representatives from these smaller counties simply defy the constitution and deny to the larger counties their just representation because it will reduce their number of members in the Legislature. It is nothing less than an infamous outrage, and again demonstrates that you cannot legislate against the negro without also affecting the interests of the white man. The small counties, as the apportionment now stands, hold the balance of power in the Legislature, and the larger counties will never secure their just rights in the way of representation unless the power of the supreme court can be invoked to compel the Legislature to obey the constitution and make a just reapportionment.

FOOD AND FIBRE.

No policy is more frequently urged upon the attention of the South than that of the importance of producing more of its own food and feed supplies so that it may have to buy less from other sections. Just now, when the low price of cotton is beginning to awaken discussion in the Southern press, the fact is emphasized that the South is to get much less for its fibre crop and is obliged to pay much more for its corn and its meat, which comes mainly from the West.

If this constitutes a grievance it is the South's own fault. There is now neither lack of land nor lack of labor to produce enough meat and corn for its own consumption. The West has the world market for its surplus corn and meat, and it would feel little disadvantage if the South were more farsighted in providing itself with these necessities. The people are responsible on their own account for what they suffer. If they sin they do it against the light of continuous preaching to the contrary.

But it is too late to wake up in the fall of the year and find out that the town grocer is charging twice or three times as much for meats as the cost of growing would be for home consumption. The idea to be effective must strike people somewhere about the holidays when they have leisure to think after the fashion which takes possession of a man, causes him to knock the ashes out of his pipe and go out and begin planning and working for the campaign of self-support for the year to come. Nothing else is worth bothering about.—Wall Street Journal.

By the perfection of wireless telephone instruments in Detroit, Mich., this method of communication has been placed in practical commercial use on the Great Lakes, and every day since July 10 officers and passengers on the new steamer "City of Cleveland" have talked with the Detroit station from as far out as 25 miles. Popular Mechanics for September says: "It is necessary to talk and then listen. Instead of being able to talk and listen at the same time, as in using the ordinary telephone. This is done by throwing over a listening key after talking and waiting for the response from the other end."

MAJOR GEO. P. FOWLER.

An interesting visitor to Gainesville during the past week was Major Geo. P. Fowler of St. Augustine, who spent two days here. He is an old friend of the editor of The Sun, the acquaintance having been formed when the Major was postmaster at Cedar Key in the 70's and the writer was a mere youth. Major Fowler and our father were together in California during the great gold excitement of the 40's, and many are the interesting experiences we have listened to them relate. The Major was a member of the constitutional convention of 1885, as well as at one time State Senator from Putnam county, where he enjoyed an extensive law practice, being attorney for the Florida Southern railway, which position he relinquished in favor of Col. Robert W. Davis. Shortly after the big fire in Jacksonville he sold his law library and removed from Palatka to St. Augustine in order to get away from his large clientele, but his services were so continuously sought after that he again engaged in active practice and he is today the oldest practicing attorney in the State, being 83 years of age. Major Fowler is a veteran of the Mexican and Civil Wars, his commander in the Mexican campaign being Zacharia Taylor, afterwards President. He is exceedingly active for his age and is one of the most enthusiastic Elks in the country. We were glad to meet our old friend again and hope to see more of him in the future.

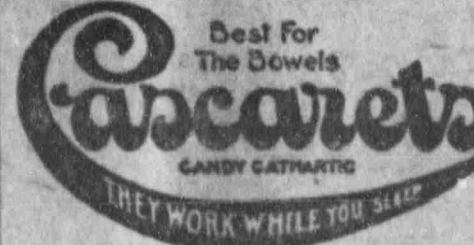

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and it is entirely closed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENNY & CO., Sold by druggists, 75c. Toledo, O. Take Hall's Family Pills for constipation.

The Genesee Pure Food Co., Le Roy, N. Y.

returned to their home at Micahopy
yesterday.

J. G. Beville of Arredondo was in
the city yesterday. He says that the
farmers are busy saving hay and that
many are preparing for their fall crop,
a large number already having in
their seed beds.

Geo. R. Ellis, traveling representa-
tive for the Virginia-Carolina Fertil-
izer Company, returned to the city
yesterday from Leesburg and other
southern points, where he reports
having had a fine trade.

Miss Willie Jones of Rochelle was
in the city yesterday. She was en-
route to High Springs, from where
she will proceed to a point east of that
place and assume charge of a public
school to open on next Monday.

W. L. Hill, the piano man, has an
attractive advertisement in this is-
sue of The Sun to which the atten-
tion of our readers is directed. He
is making it interesting for you in
the piano and organ line and it will
pay prospective purchasers to consult
him.

The G. W. Hyde Company are offer-
ing some exceptionally interesting
bargains for your consideration at
their Monday sale. Among the arti-
cles they are selling cheap, and which
are always useful, are a lot of towels
which go at 10 cents each, and are
worth twice the price.

Miss Catherine Salter, who has just
closed a successful school at Town-
send, was in the city yesterday. She
proceeded to Dade City, where she
will visit for a few days before re-
turning here, when she will proceed
to the West End and take charge of
the Franklyn school, which opens on
September 7th.

Drs. J. D. L. and R. M. Tench de-
parted yesterday for their home at
Senola, Ga. They went via Palatka
and will visit in that city, St. Augus-
tine and Jacksonville before finally
returning to their home. Dawkins,
as he is known among his Gaines-
ville friends, is an old resident of the
city and was agreeably surprised to
note the many substantial improve-
ments made here since his departure.

Mrs. Shields Warren has returned
from Apalachicola, where she has
been for the past two weeks visiting
her parents, Judge and Mrs. H. W.
Johnston. She was accompanied on
her return home by Mrs. Johnston
and daughter, Miss Inez, who will re-
main for the next few days as her
guests. They speak in high terms of
what they have seen of our little city,
and were surprised at the general
neat appearance.

Mrs. R. W. Higdon, who conducts
the Higdon Hotel at High Springs,
is to be congratulated upon the ex-
cellency of her hostelry. Mrs. Higdon,
who attends personally to the culinary
department, sets a fine table, which
the traveling public appreciates. Not
only is her table supplied with the
best in the market temptingly pre-
pared, but her rooms are clean, neat
and cool. It is no wonder that the
commercial men give the Higdon
House such a good name.

J. C. Mizelle, for the last few years
conducting a livery stable at High
Springs, has moved to Newberry,
where he has established a similar
business. Mr. Mizelle has always en-
joyed a reputation as being an up-to-
date liveryman, which, together with
the fact that he is very accommo-
dating, very reasonable in his charges,
and employs trusty and well-posted
drivers, has gained a reputation which
anyone in this business might envy.
He is very popular with the traveling
men, which is an assurance that he
will succeed in his new home.

SOCIAL AT NEWBERRY.

Delightful Entertainment for Benefit
of First Baptist Church.

Newberry, Aug. 29.—One of the
greatest events of the season was the
social given at the residence of Mr.
and Mrs. Wm. H. Tucker on Thurs-
day evening, 27th inst., for the bene-
fit of the First Baptist church of New-
berry.

The evening was very pleasantly
passed with music, games and re-
freshments.

Music was furnished by Messrs.
Thomas O. Lovelace of Tampa, Will-
iam Pickett and Ira J. Carter of New-
berry, Mesdames Thomas O. Love-
lace, Tampa, Ellis of High Springs,
Densler of Newberry, and Misses
Clem Pickett and Lillian Read of
Newberry.

The house was crowded with peo-
ple from all parts of the city, as well
as from the mining districts.

Quite a good many visitors from
other sections of the State were pres-
ent. The house was very tastefully
decorated with ferns, flowers and
Japanese lanterns.

There was quite a nice sum realized,
which will be used in the repairing
of the church, or the erection of an
up-to-date brick building.

The guests departed at a late hour,
and it goes without saying that Mr.
and Mrs. Tucker are unsurpassed in
their hospitable and social qualifica-
tions.

WANTS A STATE LEAGUE.

Louis Kalbfeld of Palatka Man With
Vim in His Bones.

Louis Kalbfeld of Palatka, who as-
sisted very materially in making such
a grand success with the baseball boys
of the Gem City, and who was in the
city the past week, is among the
strong supporters of the proposed
State league.

Mr. Kalbfeld is not one of those
kind to sit down and wait for things
to happen, but jumps up and gets
the things anticipated into action.

When the subject of a State league
was spoken of here he said he was
thinking over the proposition, and
with a dozen of the best towns of
the State a league could be formed
which would not only afford amuse-
ment and advertising, but a pleasant
rivalry among the towns forming the
circuit.

He is heartily in favor of the move
and will be found "Johnny on the spot"
when the proper time arrives for the
forming of the league.

Diarrhoea Cured.

"My father has for years been trou-
bled with diarrhoea, and tried every
means possible to effect a cure, with-
out avail," writes John H. Circle of
Philippi, W. Va. "He saw Chamber-
lain's Colic, Colera and Diarrhoea
Remedy advertised in the Philippi Re-
publican and decided to try it. The
result is one bottle cured him and he
has not suffered with the disease for
eighteen months. Before taking this
remedy he was a constant sufferer.
He is now sound and well, and al-
though sixty years old, can do as
much work as a young man." Sold
by all druggists.

Physician Killed by Train.

Troy, N. Y., Aug. 29.—B. H.
Johnson, well known as a prominent
Alabama physician, was struck by a
Coast Line train here and so terribly
injured that he died in a short time.
His right leg was crushed and many
other injuries were inflicted on his
body. He was not able to overcome
the shock of amputation of the limb.
Dr. Johnson was attempting to cross
the track when in some way he be-
came confused and was struck by the
train.

Twenty-Nine Corpses Taken Out.

McAlester, Okla., Aug. 29.—When
the rescuers had completed their work
at the Halley-Ola coal mine No. 1
at Halleyville, 14 miles east of here,
where a disastrous explosion occurred
Wednesday, twenty-nine dead bodies
had been removed. It is now believ-
ed that the last man has been ac-
counted for and that there are no
other bodies in the mine.

DELICIOUS BANANA CREAM

This recipe is highly recommended by
one of our correspondents: Try it for dessert to-
morrow.
Peel five large bananas, run through with the
unseasoned sugar. Add one large spoon
cream beaten to a stiff froth, then add one
package of Lemon JELL-O dissolved in its
quantity boiling water. Pour into mold and
when cold garnish with crushed cherries
served with good cream, or any good
icing. JELL-O is sold by all grocers at
10c per package.

FIGHT ON HIGH RATES.

Georgia Railroad Commission Decides
to Enter Protest.

Atlanta, Aug. 29.—The state rail-
road commission has at last decided to
take a hand in the fight against the
increased rates ordered by the rail-
roads on grain, hay and provisions
coming into Georgia and other south-
ern territory from Ohio and Missis-
sippi river crossings.

The commission has issued an order
directing its special attorney, Judge
James K. Hines, to prepare and pre-
sent to the interstate commerce com-
mission an appeal for relief from the
excessive rates which the railroads
are seeking permanently to impose.

Granulated Sore Eyes Cured.

"For twenty years I suffered from
a bad case of granulated sore eyes,"
says Martin Boyd of Henrietta, Ky.
"In February, 1903, a gentleman asked
me to try Chamberlain's Salve. I
bought one box and used about two-
thirds of it and my eyes have not
given me any trouble since." This
salve is for sale by all druggists.

Bank Officials Indicted.

Owensboro, Ky., Aug. 29.—The
grand jury, which has been investigat-
ing the failures of the Owensboro
Savings Bank and Trust company, and
the Davless County Bank and Trust
company, returned indictments against
four officials of the bank Thursday.

SUMMER SCHOOLS ARE NOW CLOSING

About Twenty Closed Down for Term on Friday Noon.

MANY FALL SCHOOLS OPENING

Several to Open Up for Fall Term on Monday and Others to Follow Next Week—Summer Schools All Had Good Attendance.

About all the summer schools closed for the season last Friday, when some twenty finished up their work for the term.

This has been one of the most prosperous seasons for summer schools throughout the county, and the attendance has been unusually large in all sections where they have been conducted.

As a rule the attendance has been the largest in the history of the county, which is not only gratifying to the teachers, but is especially pleasing to Superintendent Kelley and the school board, who provide these facilities for the scholars who are unable to attend the fall sessions owing to home duties that necessarily fall upon them during the fall and winter months.

Already there are several of the winter schools opening up for the fall term, and by next week many more will have begun their duties for the season. Among the higher average schools to open is the Martha Perry Institute at Rochelle, with Prof. E. H. Collier as principal and Miss Willie McIntosh as assistant, while there are numerous small schools throughout the county that have already begun the fall session.

The greater part of the schools, however, will not open until about the 28th of September.

NORTH STATE REPUBLICANS.

Full State Ticket Nominated, Headed by J. Ellwood Cox.

Charlotte, N. C., Aug. 29.—With the selection of a full state ticket, headed by J. Ellwood Cox, banker and manufacturer, of High Point, and a platform which indirectly throws down the gauntlet to democrats on the question of state-wide prohibition the republican convention completed its work Thursday afternoon and adjourned.

Ticket and platform alike were selected with a view to appealing to the conservative business interests of the state. Mr. Cox is wealthy and widely known as one of the state's captains of industry and a pioneer in its development.

The nominations were made without opposition and the sessions were harmonious throughout.

OUR WEEKLY LETTER FROM NEW YORK

Early Fall Fashions Still Under Directoire Influence—The Most Decided Changes Shown by the Sleeves—Smart Combinations of Materials—Ribbon Embroidery New and Effective.

BY MONS. GENE DE PONTAC.

The summer is getting on, and already early fall hints and indications are beginning to make their appearance. The sheath skirt or not the sheath skirt. That question still continues to burn, but the early fall fashions show merely a continuation and of course something of an elaboration of the summer ideas.

Skirts will undoubtedly be closely fitted about the hips and will probably follow the gored and semi-circular models. The Directoire influence is still paramount—narrow shoulders, long plain sleeves, frills at throat and wrist, large square pockets and cuffs, large revers, cut-away coats and sash girdles.

Whether the straight figure which has been attained by so many curious expedients on the part of the corsetier—hips not only being laced in but waistlines padded out where there seems to be something too dangerously near a curve—will endure, remains to be seen; but on the light wool tailored suits for early fall days that are already beginning to appear in the shops there is no variation from the straight lines of the summer.

The purchasing and planning of thin gowns have, however, by no means ceased, since they make dainty all-the-year-round house-gowns and their usefulness does not wane with the coming of chilly days.

Short-wristed, one-button gloves are in demand once more—a sure indication—that the long, close-fitting sleeve is an accepted fact. The new sleeves define the arm; even when they are draped, the folds lie flat and indicate the contours plainly. But the tendency is toward the long, close sleeve, its severity sometimes modified by trimming along the back. Many of these close sleeves are buttoned their entire length; others have over-lapping scallops with a button set in each scallop; braided sleeves have the back seams finished with tassels; the wrinkled sleeve of transparent material is often finished by a little frill along the outer seam; the silk or satin sleeve has the top part extending a couple of inches over the back seam, with the raw edges ravelled in a fringe. A very new, very chic touch is to make the wrinkled, transparent sleeve of two tones of chiffon, one over the other, giving a changeable effect; the small round yoke of the gown being down in the same way. Some very exclusive white lingerie gowns have sleeves of lace lined with colored chiffon or silk muslin, with yoke and stock to match.

At the French watering-places linen and khaki are often seen in combination—the skirt of the white linen and the coat of the khaki; and this will be a comfortable fashion for September, khaki having a distinct amount of warmth. Among the best of the cloth and silk combinations are the costumes including pongee and cloth of the same shade. The skirt is usually a pleated model in the pongee, and the cloth coat is heavily covered with soutache braiding. One reason for the perennial vogue of pongee is its well-nigh universal becomingness.

A new kind of embroidery that has just made its appearance is of ribbon. The ribbon runs along straight

S.S.S. DRIVES OUT BLOOD HUMORS

The skin is not simply an outer covering of the body, but through its thousands of pores and glands it performs the great and necessary work of regulating our temperatures, and also assists in disposing of the refuse and waste matters of the system by the constant evaporation that goes on through these little tubes. To perform these duties the tissues and fibres which connect and surround the pores and glands must be continually nourished by pure blood. When from any cause the circulation becomes infected with impurities and humors, it loses its strengthening powers and begins to disease and irritate the delicate tissues, and produces Eczema, Acne, Tetter, or some other itching, disfiguring skin trouble. S. S. S. cures skin diseases of every kind by going down into the circulation and neutralizing and removing the impurities and humors. It changes the quality of the blood from an acid, fiery fluid to a cooling, health-producing stream, which, instead of irritating and inflaming the skin, cures and nourishes it by its soothing, healthful qualities. Salves, washes, lotions, etc., may be used for any temporary comfort or cleanliness they afford, but skin diseases cannot be cured until S. S. S. has purified the blood. Book on Skin Diseases and any medical advice sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

for a few inches, then turns on itself and continues, but must not be stitched down. Some of the late French gowns show this ribbon embroidery made of rather narrow ribbon and crushed up into four-leaf-clover outline or flower shape. These embroideries never appear as a separate applique design but as a running border on skirt, yoke, stock or sleeve. White voile trimmed in this way with a pale-colored ribbon embroidery makes a charming little frock.

Ten Years in Bed.

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a Godsend to me." J. W. McCollum & Co.

SEA ISLAND COTTON.

Savannah Market Steady With Fair Demand During Past Week.

Savannah, Ga., August 29.—The market for Sea Islands was steady with a fair demand during the past week, and quotations remain unchanged. The business was in old cotton, the market not having fairly opened yet for the new crop.

Crop accounts speak of more or less deterioration due to the recent hot spell. It is believed that some sections at least may be improved by the recent rains, where the rains were not too heavy. The quality of the new cotton is very good.

The following prices are based on factors' quotations and are revised weekly:

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old."
